VOL. 46—No. 33

Thursday, February 10th and 13

Early Settler Passes In States

One of Raymond first settlers and well remembered in this district Charles Buhler, passed away at Pleasant Grove, Utah on February 2.

Mr. Buhler was born in Switzerland June 21, 1861. At the age of eight he came to the United States with his family who were converts to the Church of Jesus Christ at Latter Day Saints.

He married Jane McElhew of Cottonwood Canyon, Utah on December 22, 1891. In 1901 they moved to Raymond, Alberta where they operated a farm for 28 years.

In 1931 they moved to Pleasant Grove, Utah where they have resided since.

Mr. Buhler was the father of 13 children, 9 of whom are living. The following children survive: his wife, Jennie Bone, Ethel Miller, Magrath, Emily Cassilas, Nellie Baker of California, Arld of British Columbia, Clessan in South America, Bertie of Portland, Clarence in Alaska, Edna in Utah, twenty seven grandchildren and sixteen great grandchildren.

The sympathy of this community goes out to the Buhler family in the death of their father.

NEW DRUG HAS SIXFOLD STRENGTH OF MORPHINE

A new painkiller six times more powerful than morphine has been produced by chemists of Glaxo Laboratories, Greenford, England. Heptalgin, which is the name of the drug can act within a few moments and rarely takes more than a half-hour while its pain relieving effects last from at least three to four hours.

Swallowed in tablet form or given as an injection, it attacks the seat of pain without producing drowsiness or a feeling of depression. While it is too early yet to say with certainty that Heptalgin is in no way habit forming, it has been established that addiction to this drug is certainly less likely to occur than with other analgesics. In trials carried out so far on patients, the drug has given quick relief in rheumatic complaint, pleurisy, heart trouble, sinusitis, tooth ache, gastric ulcers and inoperable cancers.

Eric White and the CBC Winnipeg Orchestra were in rehearsal at CBC's Winnipeg studios (Station CHW) when this picture was taken. The orchestra is heard in the Winnipeg Sunday Concerts every two weeks, alternating with the Vancouver Symphony Orchestra, and also in other CBC programs originating in Winnipeg under Mr. White's direction.

Liquor And Milk Prices

(By Colin G. Groff in "Farm and Ranch Review")

(Extract from a speech to the UFA convention in Calgary.)

Prices of such essential as milk and butter and bread and eggs are high today, but they are not any higher, or even as high, as the level of prices in many other lines, or higher than the general level of wage rates in industry.

Farmers are getting good prices today, but these prices are not out of line with their high costs of production.

What seems to have been overlooked is that for 15 long years prior to 1945, the price level of food, or farm products was below the normal ratio of prices in industry and below the price level of many lines of goods the farmers had to buy.

In other words the Canadian people have been used to cheap food for so long that when they have to pay a price more in line with the real value of the product, there is complaint.

We hear so much about the high price of milk and butter today, and how hard it is for families to buy these necessities of life. But we ignore the fact that for every dollar we have been paying out for milk we have been paying three for beer, and tobacco, in the last few years.

The most recent figures tell us that in 1916 we paid out for alcoholic beverages and tobacco, four times as much as we did in the year before the war, but the increases in the sale of fluid milk haven't approached any

thing like those proportions. We paid out more than \$90 millions of dollars in 1916 for alcoholic beverages and tobacco and only 209 millions for fluid milk.

Here are a few figures: Beer consumption increased 132 percent between 1937 and 1947. Consumption of wine and spirits increased 91 percent, fluid milk sales 38 percent. In 1939 we spent 208 millions in liquor and tobacco, in 1946—\$603 millions. In 1939 we spent 134 millions on fluid milk; in 1946 209 millions. The output in the soft drink industry has more than tripled in recent years. The fluid milk industry has been increased by less than half of its pre-war volume.

I am not one to deny the right of men and women to drink and smoke if they wish. But I submit that if we have \$90 millions a year to spend for liquor and tobacco surely we can have little complaint to make about the price of milk and butter.

The other day I read in the Ottawa papers that Calgary bricklayers were being paid \$1.50 an hour with a limit of 300 bricks a day. Farmers will be the last of all to begrudge workmen in industry a good wage rate, and I am sure no one here begrudges the bricklayers their high scale. But I could not help wondering what the cost of milk and butter would be if farm workers who are as skilled as bricklayers, were to be paid on the same sort of scale, or if they were to reduce their efficiency of production in the same way.

The doctor told the film actress that she was run down and needed a change.

"A change," said she, "Do you realize that during the last 18 months I've had three husbands, four ears, three jewel robberies, 11 cooks, two divorces and seven landladies? What other change can you suggest."

UNITED KINGDOM UNDERTAKE UNIQUE ARCHITECTURAL FEAT

United Kingdom engineers have just completed the first stage of a unique architectural feat in the heart of London. A building of great historic interest is being lowered intact to a depth of 20 feet in Whitehall. Above it will then be built 270,000 square feet of Government offices. They will occupy part of the site on which King Henry 8's Whitehall palace originally stood. It is a section of this palace which is being bodily removed and lowered. The object is to preserve intact the crypt, dating back to the 16th century, known as King's wine cellar. It weighs nearly 800 tons and measures about 70 feet by 30 feet. Before being moved it was underpinned with girders of steel and concrete as well as reinforced internally. This has enabled it to bear the strain of being shifted a distance of 40 feet on steel rollers. It will require five days of careful handling to lower it the required 20 feet. This will be done one-eighth of an inch at a time and 186 16-ton jacks are to be used.

Your Women's Editor, Kate Aitken who takes time out from her duties as Women's Editor of the Standard, Women's Director of the Canadian National Exhibition, lecturer, cooking consultant, and homemaker, to report on the latest in household economics, fashioning, current events, and the arts in a Monday, Wednesday and Friday broadcast at 3:00 p.m. on the CBC Dominion network.

Art Exhibit By Former Resident

JACKS COME TO LIFE

With playoffs in sight Beau Mitchell and his band of Union Jacks are shaping in to a Championship ball team. They'll be tough to knock out of the playoff, and we seek to our earlier prediction that they won't be knocked out.

Starry Alan West is proving himself in the centre slot, hitting the bucket for pay-off points. Defensively he's no slouch, having held Max S. by 2 points in Magrath last Saturday and sharp "shooter" Gregson of Cardston to 9 points last Wednesday night.

And with "Stoney" hitting his old form and stalwarts like End Roltson and young Larry West on the guard line things look bright for the Jacks.

Faced by Al West with 22 points they took Magrath Lions 13 to 50 in the Lions Den last Saturday night. Again led by Al with 21 points the Jacks put on a last half rally to take Cardston 59 to 33.

CANADIAN VISITOR

R.C.A. Photo from Central Press Canadian

Now en route back to New Zealand via Canada and the United States is the Rt. Hon. Peter Fraser, prime minister of New Zealand, shown as he was photographed in Montreal after arriving from London where he had been attending the Commonwealth Prime Ministers' Conference. He left by train for Ottawa, where he visited Prime Minister Louis St. Laurent and other ministers.

The prodigal son had returned. "Father," he inquired, "are you going to kill the fatted calf?"

"No," answered the old man, "I'm saving the calf for you."

"No, I'll let you live. But I'll put you to work and train a lot of that sort of calf."

Samuel Hersenhoren, who conducts the orchestra in the Toronto series, Strings for Sunday, heard on CBW at 6:30 p.m.; CBK and CBX at 5:30 p.m. He also leads a CBC orchestra on Thursdays providing the musical preludes for the Wayne and Shuster Show heard at 8:30 p.m. on CBW; 7:30 p.m. on CBK and CBX. Mr. Hersenhoren has appeared as guest conductor with symphony orchestras in Canada and in the United States, and is widely known as a concert violinist.

gden, Utah. Thirty six paintings Miss Laura Redd of Brigham City will be exhibited here from today to Saturday, March 5th at the Utah Power and Light Co. Auditorium under sponsorship of the Ogden-Palette Club.

The exhibit will open with a tea from three p.m. to six p.m. today, after which the paintings may be seen from eight-thirty a.m. to five-thirty p.m. on week days.

Miss Redd, now a teacher at Box Elder High school, was born in Washington county, Utah. She studied at the University of Utah under Mah 1 Frazer and was graduated with a art major. Later she studied at the Chouinard school and the University of Southern California at Los Angeles as well as at the University of Banff in Canada.

She has spent many months in the Utah mountains, canyons and deserts with her former teacher Mahel Frazer.

Laura Redd is a sister of Kay a Paul of Raymond and is well known here. One of the paintings in her exhibit was done in Raymond in 1910 and is of the Sugar Factory Lake and the factory, looking south. She calls it "Sugar Mill Pond".

Bride Terms Marriage "Contract" Not Romance

—Central Press Canadian

The old song of "Love Will Find a Way" is not quite appropriate here for the marriage of 60-year-old Mrs. Adrianna Eugenie Nicholson to her Negro chauffeur, 28-year-old Allen Lee Gustard Woods, was termed a "contract" and not a romance by the bride herself. The ill-assorted couple was married by a Negro Cosmopolitan Christian church, Los Angeles, after three white judges and a white minister refused to perform the ceremony. This photo was made as Woods pushed his wheelchair bride-to-be through the corridor of the Hall of Justice after the judges had refused to marry them. Woods has been caring for Mrs. Nicholson for the past seven years.

MONDAY IS NOMINATION DAY

Our civic elections are fast approaching with the coming Monday set for Nomination Day and the following Monday is Election Day.

The term of office of Mayor William Jensen has expired, as has the terms of Councilors Lyman Jacobs and William Fairbanks. These men have served the people of Raymond well and under their guiding hands long strides of progress have been made.

Retiring Trustees of the School are T.W. Meldrum and S. J. Weaver.

There has been no indication as to whether any of these men will stand again for re-election.

The scene is set in the CBC's Toronto studios for another broadcast of "They Tell Me", and just before the producer signals "go", commentator Claire Wallace and announcer Elwood Glover discuss some last minute script details. Every Monday, Wednesday and Friday at 12:45 p.m. on CBW; 11:45 a.m. on CBK, CBX, globe-trotting Claire tells Elwood about all the interesting people she runs across in her search for human interest stories, and the coast-to-coast radio audience listens in via CBC Trans-Canada network. Claire has been digging up unusual news items and presenting them on the air in a bright and easy manner for fifteen years.

The Annual Meeting of the Ratepayers of the Town of Raymond could almost be termed a slap in the face to the town, school and hospital boards. Not one ratepayer turned out to give a vote of thanks to them. I beg your pardon, one ratepayer did come just as those of the council's present decided to go home.

The secretaries of the various boards prepare financial statements each year to be presented at the annual meeting. The chairman of the various groups have reports to give. But what incentive do you people of the town give your council, school and hospital boards to operate if you are not interested in how they have handled your affairs.

The Town of Raymond as a people is dead, with a capital D. Not even the ambition to turn out to say thanks to the council members. With such enthusiasm behind them you councils can certainly give their best for you.

If your town affairs were administered with such enthusiasm wouldn't you cry.

How dead can a town get. The next two Mondays can show a bit more how dead we are. Next Monday February 21st, is Nomination Day.

Did you know that the terms of the Mayor, 2 councillors and 2 school trustees are up? Have you given any thought as to whom you would like to see fill those positions or are you satisfied with what these members have done. No matter what your opinion, on the 25th of February you have a chance to voice it at the polls. Are you going to vote or will you leave it to your neighbor? And if your neighbor has the same idea then Election Day will be a repeat of the Annual Meeting.

Six men cannot build a town into what it should be without the support of the citizens. The next few years can mean much to Raymond if the people wake up.

Let's not let Election Day go by without casting our vote.

Any way, you people of Raymond, let's show some civic pride this year and let's all pull for the common good, let's all co-operate in running your business. In other words let's all be CITIZENS of Raymond, not mere residents.

Now that the question of natural gas is in the news the question on everyone's lips is "Why can't Ray-

FALCONS PREVENT BIRD-PLANE CRASHES

To save airmen's lives, these peregrine falcons were assigned to the job of clearing the air of birds above Prestwick Airport, Scotland. Since they have been on duty wheeling and diving in precision and other birds no collisions have occurred between aircraft and birds, which, last year, caused 13 accidents. Here the birds are shown hooded which assures their good behaviour when stationary on the ground.

mond have natural gas along with many other centres instead of exporting it out of the country."

Natural gas for Raymond would be a decided boon and would go a long way towards making Raymond a good place to live. Natural gas goes well with our recent modernization program of sewer and water works and with the price of coal as it is would be a decided financial benefit as well as giving us the benefit of its convenience.

The Town Council have been corresponding with the Gas Company and have been assured that we will get Natural Gas in a matter of a couple of years, as soon as materials are available. This is welcome news and we would like to see if the two years could not be changed to 'by next fall'. However, if we keep after the things that make a good town better we may continue to grow and not start on the backward trail.

WILL URGE SUSPENSION LEVY ON MOTORISTS

Action on the provincial government's special levy of \$1 on motorists for purposes of the Automobile Accident Indemnity Act is planned by officials of the Alberta Motor Association.

This fund is now estimated to amount to \$200,000 with claims against it being negligible since it was started in 1917. It was established to provide compensation to persons injured in motor car accidents.

A.M.A. Officials contend that motorists are entitled to relief from this continued impost. It is pointed out

that Manitoba last year suspended collection of the fee while in Ontario the amount this year has been put at 50 cents additional for each license.

The A.M.A. is preparing to make strong representations to the provincial government on the matter. These will be made prior to final government action on the budget for the next fiscal year which opens February 1.

With motorists now required to pay a high annual license fee, in addition to a nine cents a gallon gasolene tax, it is contended that some measures of relief from the extra

levy for the Accident Fund should be forthcoming this year.

COMPANA BARLEY

Compana is a new, two rowed, semi-smooth barley variety which is being grown extensively on dry land in Montana. It has been grown to some extent in southeastern Alberta and Southwestern Saskatchewan and has performed very well in comparison with other varieties. This variety was licensed for sale as seed in Canada in 1918, and is recommended in zone 1, which is the dry area of Alberta. Compared with Glacier, Compana

THE OLD HOME TOWN By STANLEY

DOES THIS CHEQUE belong to YOU?

Nearly 40,000 cheques — worth some two million dollars — covering last year's Compulsory Savings Refund for 1942 are still unclaimed. They belong to Canadians who have changed their name or address, or both, since 1943, and failed to notify the Government.

This year, cheques, which are going begging — worth up to as much as \$15,000,000 — should be going out this March to as many as 200,000 Canadians for the return of 1943 and 1944 Refundable Savings. But proper names or addresses are lacking.

Do any of these refund cheques belong to you?

Have you changed your name or address, or both, since 1943 and haven't notified the Government? If so, we urge you to fill in a Change of Address Card and mail it as soon as you possibly can. You'll find these cards at any Post Office.

WHEN YOU RECEIVE YOUR REFUND... why not put that money in a savings account at the Bank of Montreal? It's money already saved... you won't miss it... you'll be glad of it in months ahead. Thousands of B of M customers have built up a tidy sum this easy way.

Notice Of Nomination Meeting

PUBLIC NOTICE is hereby given that I will attend at the TOWN HALL, RAYMOND, on MONDAY the 21 day of February, 1949, from ELEVEN o'clock in the forenoon until TWELVE o'clock noon for the purpose of nominating persons for the office of TAYLOR for the next ensuing two years, TWO COUNCILLORS, for the next ensuing three years, and for the office of TWO SCHOOL TRUSTEES, for the next ensuing two years.

Given under my hand at RAYMOND, this 15 day of February, 1949

GEORGE E. COURT,
Returning Officer

Birth
WITHECK—To Mr. and Mrs. Jerry Witheck, a daughter at the local hospital.

SCHUMERS—To Mr. and Mrs. Louis Schumers a daughter, at the local hospital.

MAC PHEE—To Mr. and Mrs. J. L. MacPhee a daughter.

ASH—To Mr. and Mrs. Ash, a daughter.

BISHOP—To Mr. and Mrs. Bishop, a daughter.

ZOBEL—To Mr. and Mrs. Zobel, a son, James Paul Idaho, a son, Ernest.

WOOLLEY—To Mr. and Mrs. Woolley, a son.

CHINOOK LEAGUE PLAYOFFS In Lethbridge Arena

A recent announcement by the local hockey committee is that the Lethbridge Arena has been arranged for in which to hold the playoff games in the Chinook Hockey League which the Raymond Rangers are at present are at the top.

Also it looks very much like the Juvenile team may also be in the playoffs in their department.

This is a chance for the boys to make a bit of money as they go into the Arena on a percentage basis. Tickets for the games which will be held February 22 and 23 in Lethbridge are now on sale and may be purchased from any member of either the Rangers or the Rockets.

Following is a report of the standings of the various teams in the Chinook Hockey League.

LIONS CLUB

A very lively meeting of the Lions Club was held the first week in February, with twenty-six hungry Lions feasting for food. The feature of the evening was Herb Wilde's Tall Tale Sing. Seven new members were welcomed into the club. We expect the boost in morale and in our projects from these boys.

A group planned to take in Cardston's Charter Nite on the 9th. The Meeting started an hour early to clear the way for the Jacks and Lions final game in the Senior Basketball League.

At the close of the regular Club meeting, the Stampede Committee were busy organizing the campaign for our two special meetings were held a big show in July. Announcements will be made presently giving the details of the plans.

make reports of our club activities. A directors meeting was called to make reports of our club activities for the district Governor Charlie Matkin. He seemed well pleased with the gain in membership, our Club Bulletin and our work in general.

N.S.F.—CAN'T WED SAYS MILFORD-HAVEN

—Central Press Canadian
The Marquis of Milford-Haven, 29-year-old cousin of the King, who bit the tabloids in the company of Actress Peggy Maley and Ambassador's daughter Sharon Douglas while in the U.S. representing a heating firm, is shown arriving in London, on his return from the United States. The marquis denied all rumors that he was engaged, saying he could not afford to marry.

due to games cancelled on agreement of both teams involved.

Our boys are making better showings each year in hockey and it is to be hoped that a good many tickets will be sold in Raymond. Those having tickets and no way for transportation leave your name at the Sugar Bowl and if there are sufficient a Greyhound Bus may be chartered for your convenience. Let's get behind our boys in the playoffs and push them into a championship spot.

TRANSPORTATION COSTS HAVE OUTGROWN THEIR BRITCHES

PRESENT LEVEL \$7.75 PER TON 6¢ PER GAL \$6400 \$174960 \$90.632 65% INCREASE 70% INCREASE

The above cartoon, published in the Christmas issue of The Spanner, house organ of the Canadian Pacific Railway, graphically illustrates that if the C.P.R. is to continue to pay its way and remain in business it simply cannot pay out for equipment, materials, wages and other expenses, more than it takes in. The "baby clinic" cartoon shows that transportation costs in relation to freight rates have outgrown their "britches" — to the point

where many items have increased more than 50 per cent over pre-war costs. The same unprecedented increase is true in such important items as rolling stock units as well as in materials and wages. In the latter two categories costs have jumped over 65 per cent and 70 per cent respectively since pre-war days while the price of most freight transportation items has gone up only 21 per cent.

THIS LITTLE FELLOW HAS ONLY GROWN 21 PER CENT SINCE 1921!

SCOTT'S SCRAP BOOK

By R. J. SCOTT

Let's Eat
BY
IDA BAILEY ALLEN

"All I do is cook and clean up!"
"My feet are killing me!"
"Now I hate dish washing!"

Do any of these remarks sound familiar? I'll venture a guess there is scarcely a home in the whole country where at least one of them hasn't been made this past holiday week.

We are facing a brand New Year. Let's take a few moments to plan ways to solve these problems, and make our present kitchen more efficiently workable.

Operation Kitchen

Kitchen work may be divided into three operations: (1) Preparing and cooking food, (2) Serving meals, (3) Dish washing and cleaning up. And in doing this the average homemaker spends much more time and physical and nervous energy than is necessary. And, believe it or not, the stream-lined, covered up kitchens of today are partly to blame.

Utensils and food products should be grouped at the points where they are to be used. Is this true of your kitchen, or is everything carefully hidden away? Consider one simple operation—paring vegetables:

Do you keep the knives within arm's length from the sink? Or do you have to walk a few feet every time you want a paring knife and get it out of the table drawer? Where do you put the parings? In the sink? Then you have to clean it out. Better use a sink strainer. All you have to do is empty it out the garbage can.

I'll hazard a guess the salt and pepper shakers and most herbs and seasonings used at the stove are kept in one of those shiny chrome cupboards. Why? Because the stove

has no shelf. For a little money you can get a big white metal wall shelf with a storage shelf on top, and put it up back of the stove. It will take care of the seasonings and keep the wall clean.

Frying Pans

Where do you keep the frying pans? In the oven I'll bet, if your kitchen is small. And where are the potato masher, the meat mallet, the egg beater? All mixed up in the utensil drawer? For goodness sake, spend a bit more money for some open shelves, put in some hooks and hang up the frying pans and small cooking utensils where you can easily reach them. Get a high kitchen stool with a back, and learn to work sitting instead of standing—it takes much less energy. Wear properly adjusted shoes while in the kitchen and you won't know you have any feet.

As to the dish washing, that's easy if organized. Wash up and put away cooking utensils as used and you won't have them cluttering up the kitchen. Scrape the residue from plates with a rubber scraper, rinse and stack them. Rinse cups then sort to wash using a dish mop and a good detergent. Silver and glass are washed first. Scald and dry. Then wash the dishes but don't dry them or look injured because "hubby" won't insist stack them in a dish strainer, then scald with very hot water. Flap over a clean towel and forget them. The dishes will steam dry.

If you will honestly criticize and then reorganize your kitchen method—the year 1949 will bring you pepper shaker and most herbs and seasonings used at the stove are kept in one of those shiny chrome cupboards. Why? Because the stove

PRIMPING FOR DAILY PERFORMANCES

Local Happenings

The Womens Institute met at the home of Mrs. June Alfred for their monthly meeting and in spite of the very cold weather twenty-two ladies were present. Opening song was The Simple Leaf Forever with Mrs. Ruby McMullin giving the Creed.

Roll Call was answered with a health hint and some very good hints were suggested. Mrs. Wayne Holland gave an excellent paper on fatigue and stressed looking after one's health.

It was decided to donate \$10 to the local hospital for the incubator.

The History of the Womens Institute written by Mrs. June Alfred was read by Mrs. May Kitchen. There are two charter members still active.

Carrying out the Valence Moll the hostess Mrs. Martin and Mrs. June Alfred served a delicious lunch at the close of the meeting.

Mrs. Fontella Hawkins held a party Friday evening for a number of the younger set in honor of Kay Cook who leaves next week to enter the Mission Home in Salt Lake City. Games were much enjoyed followed by a lovely supper.

Mr. and Mrs. Joseph Huth and five children have arrived in Raymond to make their home. The Huth family came here from the Russian Zone in Germany but are originally from Poland. They have an exciting story to tell of conditions in Europe and their troubles getting out of Germany to come to Canada.

Mr. Huth is a brother of Mrs. Howard Kasamussen and they have not seen each other in twenty-eight years.

Miss Margaret Greep entertained a number of friends at her home Saturday evening at a book party.

Mr. and Mrs. Seth Peterson of Brooks have been guests here of their son-in-law and daughter Mr. and Mrs. Glen Bullock.

Lady members of the Curling Club at which there are eleven rinks are really enlivened with the game and plans are now being made to take a trip, with Mrs. Ralph James as skip, to the Taber Bouspiel, to be held February 19 and 20. They are also planning to send a rink to the Warner Bouspiel the next week. The set of Curling Rocks on which ticks have been sold the past few months will be drawn for at the Big Curling Dance to be held this Saturday at the Opera House. Proceeds will all go to the Curling Rink.

At Fireside Sunday evening, M Men and Gleaners of the Raymond Four Wards gathered at the Club Rooms in the Opera House. Guest speaker at the service was M. T. King who gave a very interesting talk. Musical numbers were also heard.

Friends and neighbors met at the home of Mr. and Mrs. T. W. Melchum Saturday evening in honor of Kay Cook. Progressive games were enjoyed with prizes going to Jack Ralph and Vesta Anderson and consolation to Myrtle Williams and Frank Kenny. Lunch was served to the thirty-five guests. A purse of money was presented to Kay with the best wishes of his many friends.

Mr. and Mrs. Frank Kenny of Taber spent the weekend here guests of Mr. and Mrs. Jack Kenny.

Mr. and Mrs. A. Walker of Toronto and Mrs. George D. O'Brien of Grande Prairie are visiting here at the home of their parents Mr. and Mrs. D. A. Bennett.

Miss Hazel McBride spent the week end here at her home returning to her work in Nanton Monday morning.

A Missionary farewell service was held Sunday evening in the 1st Ward Chapel for Kay Cook. Speakers were Bishop Horne, Mr. of Magrath, U. R. Wing, the young missionary and his parents and an Aunt, Mrs. Claude Merkely of Magrath. Special musical numbers were given by three young cousins of Kay's from Magrath and Miss Geraldine Court.

The Youth Club met Monday at the home of Mrs. Kay Johnson. The book review "Shannon's Way" was only given by Mrs. Gertrude Fairbanks. Our new members were welcomed into the club: Mesdames W. D. Low, Dorothy Reed, Mildred Wood and Joan Weeks. Lunch was later served by the hostess.

Miss Kay Johnston spent a few days in Taber this week.

Dorothy Alt, theme songstress in the Canadian Time broadcasts on Wednesday at 7:30 p.m. on the CBC Dominion network, since her first singing engagement at the age of four in her home town Plum Coulee, Manitoba, Miss Alt has become one of Canada's best-known vocalists. For two years she was with Percy Faith and she has also appeared in such programs as Latin American Serenade and Canadian Cavalcade. Also to her credit are a stint at movie-making for the National Film Board, several years as mistress of ceremonies in International House Party, a Buffalo broadcast series, as well as stage, radio and television appearances in England.

OLD MAN RIVER JUST KEPT ROLLIN' ALONG

One hundred and fifty feet above the Mississippi river hangs the nose of a truck van that smashed through the railing of the Eads bridge in St. Louis, Mo. The driver escaped with minor injuries. The upflung hood of the truck looks like a mouth open to scream. But old man river kept placidly on his way, retaining his reputation for sayin' and doin' nothin'.

THE CANADIAN ARMY—"INSURANCE FOR PEACE"

FOR YOU
wings of the Airborne!

The red beret, the proud wings of the paratrooper are world famous. His is one of the many interesting and exciting jobs in the new Canadian Army Active Force.

The new Army gives you every chance for self-improvement and advancement. There is unlimited opportunity for promotion—if you have what it takes.

You can become a paratrooper and enjoy the thrill and excitement of the newest Branch of the Canadian Army.

This is your opportunity to join men who are starting a career with a future—if you meet these requirements: good physical condition, 17 to 25 years of age, veterans with airborne experience will be given up to 30... pass the Army's entry requirements. There is extra pay for parachute service.

If you would like to win your wings, write or visit your local recruiting office today. Bring your certificates of age and education with you.

Go to Personnel Depot, Laurier Barracks, CALGARY, Alta.

On Living In An Apartment

Living in an apartment has its advantages—also its disadvantages. Landlords are peculiar people, janitors more peculiar.

Let me deal first with the latter, the dweller in an apartment is closer to the janitor than he is to the landlord. What would you think of a janitor who would run the temperature of your apartment up to 84 degrees in a day when there was no particular need for excess heat, then drop it down to 55 for some reason wholly unknown. Once he came home at four o'clock in the morning, put on a fire which made every radiator in the building rattle? Perhaps the answer lies in his peculiar sense of humor.

I know one man in the apartment who went to the janitor a day or two before Christmas telling him that he had two little girls and "so help me" he said, "they definitely believe in Santa Claus and I want heat in that apartment at six o'clock in the morning because we can't get clothes on them until they have seen what Santa has for them, we just must have the place warm." His magic worked, the house was warm. Even the janitor has a heart on Christmas Day.

If janitors are peculiar, so also

are landlords. There are a good many landlords who have a definite sense of responsibility and do everything they possibly can to provide reasonable comfort. They promptly repair their land and equipment as circumstance demand. Then there are those who feel that they increase the value of their own property by letting everything run down. They would not spend 50c on a repair job even if they knew that in the long run, it would save them \$50.00.

All this comes back to one thing. We couldn't build houses during the war. We hadn't labor or materials. Rent was fixed because they had to be fixed. We couldn't send a man to the front to fight for us and kick his family out while he was away doing it. Nor could we do it when he came home. Building costs were high, so now housing is scarce and there we are. Some day this problem has to be faced. If prices fall it might be remedied soon but if prices do not decline the problem will get out of hand—it will be solved in the end by pain and difficulty there is no royal road to cheap housing.

I wasn't hungry last night. The watchful guardian of my home wanted to know the reason. In brief I didn't want food. Later I put on the coffee pot. Then something else attracted my attention and I forgot about it. It was a bit overdone. I took a cup of it, and went to bed about ten o'clock. The little demons of the drink got me. Coffee rarely keeps me awake. At four a.m. I was still awake. Then I stopped rolling around and twisting the covers from place to place. I started to write

POT HOLE DAM OFFICIALLY NAMED 'JENSEN RESERVOIR'

from The Magrath Mirror
Recently there has been much speculation as to the possibility of naming the lake formed by the Pot Hole Culee Dam, in a fitting celebration during our Jubilee celebration. This however, is impossible as it has been named already.

About one year ago now, certain people in town were given to understand that the lake was to be named "Pot Hole Reservoir". Not liking this, they began looking for a name and thought it would be nice to name it after Mr. Christian Jensen, who served 20 years as chairman of the Board of Trustees of the Magrath Irrigation District.

This idea was presented to the rate payers of the Irrigation district at

their annual meeting, held last January. The meeting approved and the secretary, Mr. Horace Ririe, was instructed to try to get the lake and dam named "Jensen Reservoir" and "Jensen Dam".

As a result the following item will appear in the Annual Report of the Geographic Board of Alberta.

"These (referring to the lake and dam) were named after Mr. Christian Jensen, who was chairman of the Magrath Irrigation District for more than twenty years. He has also been prominent in the activities of the Wheat Pool."

It should be noted that Mr. Jensen worked very closely with Mr. J. W. Evans of Raymond, and through their combined efforts Magrath is the centre of a great irrigation area.

The Closed Market Cost Farmers Millions Of Dollars

Study The Merits Of The Open Market!

Let those who desire, continue to sell their wheat at a fixed price through the Wheat Board, providing you can sell on the open market if you prefer. In this otherwise free Canada you should be entitled to Freedom of Choice in the marketing of your grain.

yields more under dry conditions such as those encountered in South-western Alberta. Where moisture conditions are more favorable, the two are about equal in yield, while under relatively moist conditions Glacier is usually higher. Under all conditions, however, Compaa is higher in bushel weight and has less hull. Compaa is much more resistant to loose smut and also threshes more easily than Glacier. Glacier is not licensed for sale as seed in Canada because it is not widely adapted and is highly susceptible to loose smut.

In tests conducted by the Experimental Stations at Lethbridge and Swift Current, Compaa has out-

yielded Titan in the very dry areas of the Brown Soil Zone. It produces a relatively good yield of grain with a high bushel weight even under very dry conditions. Since Compaa does not shatter or lose its heads readily it can be straight combined without much danger of loss from wind damage.

Compaa is very weak in the straw and is not suitable where moisture conditions are such that lodging is a problem.

It is moderately resistant to loose smut and moderately susceptible to Swift Current. Compaa has out-

If your John Deere Equipment needs parts replaced, you'll find it pays to replace them with only *genuine* John Deere Parts.

Why? Because each John Deere Part is the identical twin of the part built into your equipment. It's made from the same high-grade materials . . . from the same patterns and dies . . . with the same quality workmanship as was the original part it replaces. *Genuine* John Deere Parts are made to fit right . . . to last longer.

Check over your John Deere Equipment now. Get it set to go when the next working season arrives. Place your order with us for *genuine* replacement parts for your John Deere Equipment the next time you're in town.

WE USE ONLY GENUINE JOHN DEERE PARTS IN OVERHAULING YOUR FARM EQUIPMENT

A Message to

ALL M.L.A.'s

During the past few years, the money voted for the maintenance and construction of highways by the Provincial Government has been equal to, or slightly in excess of, the total revenue derived from motor vehicles.

THE RESULT: Improved highways, improved transportation, and economic, educational and social benefits to all.

Your constituents will approve your support of a similar vote for 1949, to extend these benefits to many not already adequately served.

Good roads will mean progress for Alberta.

"AXIS SALLY" ON TRIAL FOR TREASON

Blonde, fur-coated Mildred E. Gillars, former actress from Portland, Maine, who won a measure of doubtful fame as "Axis Sally" of the wartime Nazi propaganda radio, is shown as she leaves court in Washington after the opening of her trial on treason charges. Miss Gillars asserts that she never told U.S. soldiers to lay down their arms or said anything in her broadcasts that could be called treasonable.

By **Dr. F. J. GREANEY**, Director,
Line Elevators Farm Service
Winnipeg, Manitoba

Germination Tests Are Important
The purpose of this report is to emphasize the importance of germination tests.

Line Elevators Farm Service has just completed germination tests on 1070 farmers' samples of wheat, oat, barley and flax seed from all over Manitoba, Saskatchewan and Alberta. The results, showing the percentage of samples tested in which the germination was below 71 per cent, are given in the accompanying table.

Crop	Percentage of Samples	
	Germinating Less Than 71%	Germinating 71% or More
Wheat	10.9	1.9
Oats	0.0	9.3
Barley	0.0	8.1
Flax	3.8	1.5

The above results show that in 10.9% of the wheat samples from Manitoba, and in 4.8% of the Alberta wheat samples, the germination was below 71%. They also show that many Saskatchewan farmers' crops of oats and barley, 9.3% and 8.1% respectively, are germinating poorly this year. It is evident that the most serious seed germination situation exists in Alberta. For instance, in 30.4% of the oat samples, 22.4% of the barley samples, and in 20.7% of the flax samples tested from Alberta, the germination fell below 71% level.

Farmers in the northern districts of Alberta and Saskatchewan would be well advised to have their small grain seeds tested for germination this year. In fact, it will be necessary for many of them, owing to frost damage, to secure new seed. Fortunately, there are abundant supplies of Registered and Certified seed available this year, and they are moderately priced. Don't take a chance. Plant good seed this spring.

Many farmers are taking advantage of the free seed testing service offered by Line Elevators Farm Service. If you are not too sure about the germinating capacity of your seed, consult your local Line Elevator agent. He can help you with your seed problems.

Joggins: How do you get on with the boss, old man?
Joggins: He's about the meanest man I know.

Joggins: How's that?
Joggins: He's had the legs sawn off the wheelbarrow so that I can't sit down and rest.
